A good vulcanizer will always be able to tell, after examination of a tire, if its condition will warrant profitable retreading. And no tire repairman will advise a retread when the carcass is in bad shape, for the carcass is the foundation of the tire, and if this is bad, no retread however well put on, will add sufficient mileage to the tire to warrant the expense involved. But where the tire has had good care and the fabric is uninjured, a retread is a profitable investment. Many thousands of miles are added to tire life in this manner. Before discarding o tires, they should be taken to a competent vulcanizer for examination. Perhaps, a new tread, or a new section can be built into a tire, that will greatly increase its length of service. Vulcanizing treads on used tires, has reached so great a degree of perfection, that even racing drivers are using retreaded tires. In the past racing drivers have never used tires that have undergone any kind of repairs--only new tires were considered safe. But that retreaded tires are a success on the race tracks is abundantly proven in the experience of Louis Chevrolet, who during the winter season won several races on the western coast on retreaded Goodyear cord tires. In the interests of conservation every motorist should first consider the advantages of...
